

Estimator: please draw in any distinguishing landmarks, landscaping areas, pools, additional parking areas, etc. This diagram is for markup only; it does not indicate exact placement of the items noted. Amend lot shape as necessary with hand drawing. If lot is too far from this diagram use back of sheet for custom drawing and calculation.

Comments:

- Area of a rectangle = width * length
- Area of a parallelogram = base * height
- Area of a triangle = (base * height) / 2
- Area of a trapezoid = ((base1 + base2) / 2) * height
- Area of a circle = pi * the radius squared, where pi = 3.14

Lot sq. ft.		_____
Driveway sq. ft.	-	_____
House sq. ft.	-	_____
Addl. area sq. ft.	-	_____
Addl. area sq. ft.	-	_____
Addl. area sq. ft.	-	_____
